

工事(業務)名	野遠町ほか配水管布設工事
----------------	--------------

The map displays a detailed street grid and geographical features. A prominent thick black line represents the proposed water pipe layout. This line begins on the left side of the map, runs vertically through the area labeled '野遠町', and then turns horizontally to the right. From this horizontal segment, a branch extends diagonally upwards and to the right, passing through the area labeled '野遠町' again, and then continues diagonally towards the '西除川' (Saijokawa) river. The map also shows the '大阪中央環状線' (Osaka Central Ring Line) running horizontally at the bottom. Other labeled areas include '北区' (North Ward) to the north, '八下北' (Yasuhiko) to the south, and '美原区' (Minamihara Ward) and '今井' (Imai) to the east. The '西除川' (Saijokawa) river is shown flowing along the eastern edge of the map.
